

OR Careers Survey

Rendcomb College is committed to providing our students with a comprehensive Careers Guidance programme throughout their time at Rendcomb College. Students will receive age-related guidance and support during PSHE, delivered through a combination of internal and external presentations alongside the excellent Unifrog online careers platform. Our aim is to ensure that students are actively investigating and aspiring towards one or more potential careers.

Within our parent body, former pupils and college staff, we have a wealth of talent and experience covering a diverse range of careers across the arts, science, armed forces and business. With this in mind the college is looking to recruit speakers for careers talks, small group or individual mentors, in person and online, informal careers 'speed dating' events, work experience etc.

For those wishing and able to contribute to our growing careers programme please complete the below here <<https://www.surveymonkey.com/r/9K8HZHG>> and we will be in touch soon with more details.
